Start With Your Everyday Routes

Build a useful shortlist

Choose a few areas around the work, recreation and personal connections you want to keep. Test the journeys at the times you will use them.

Compare like with like

Visit more than one street and housing type. Check the property address, surroundings and future plans rather than relying on a neighbourhood label.

Schools and daily journeys

Confirm school eligibility with the relevant division for the exact address, grade, program and year. Proximity alone does not guarantee placement. Test travel and return journeys separately.

Existing amenities versus future plans

Check official municipal notices and property records. A planned road, school, park or development is not the same as an operating facility.

What to notice on a viewing

Look at access, storage, maintenance, street activity and parking. Arrange appropriate professional review of the property and its documents.
